

#### 12W Single/Dual USB Charger Adapter Emulator

### **DESCRIPTION**

The UC2633/UC2634 is single/dual USB adapter emulators with automatic host charger identification circuitry for USB dedicated chargers.

The devices integrated automatic USB charger identification circuit allow mobile power supply, In-Car charger, USB wall adapters, travel chargers, and other dedicated chargers to identify themselves as a USB dedicated charger to USB devices, like Apple charger to Apple products, Samsung charger to Samsung Galaxy Tab & Smart Phone, and BC1.2 charger to HTC, SONY, LG, BlackBerry, Lenovo, Coolpad, ZTE, Huawei and other legacy D+/D- short detection devices.

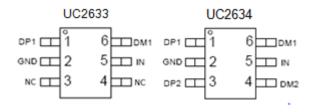

### **FEATURES**

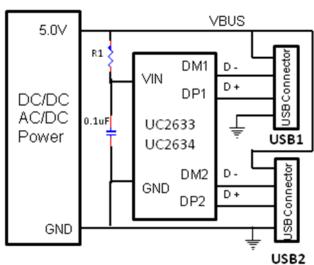

- 4.5V~5.5V Single Supply Operation.
- Automatic USB charger Identification Circuit.
- UC2633/UC2634 Support Apple® Devices fast charging. (Apple® 2.4A mode)
- Support Samsung Galaxy Tab Devices fast Charging. (Samsung® 2.1A mode)
- Support BC1.2 & YD/T 1591-2009 Charging Spec. (DCP® 1.0A mode)
- Available in SOT23-6 Package.

### **APPLICATIONS**

Power Bank/Car Charger USB Wall Adapter Travel Charger

### PACKAGE AND APPLICATION

R1=1k in application to improve Reliability

### 12W Single/Dual USB Charger Adapter Emulator

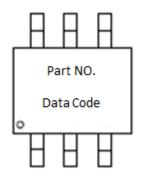

## PART NO. TABLE

| Part No. | Dual/Single | Apple 12W | Apple 10W | Apple 5W | SS 10W  | DCP 5W  |
|----------|-------------|-----------|-----------|----------|---------|---------|
| UC2633   | Single      | Support   |           |          | Support | Support |
| UC2634   | Dual        | Support   |           |          | Support | Support |

## **ORDING INFORMATION**

| Part Number | Package Type | Package Qty | Op Temp(°C) |
|-------------|--------------|-------------|-------------|
| UC2633      | SOT23-6      | 3000        | -40~85      |
| UC2634      | SOT23-6      | 3000        | -40~85      |

## **MARK INFORMATION**

#### 12W Single/Dual USB Charger Adapter Emulator

#### **ABSOLUTE MAXIMUM RATINGS (1)**

Over recommended operating free-air temperature range (unless otherwise noted)

|  | MIN  | MAX  | UNIT |    |  |
|--|--|------|------|----|--|
| supply voltage range                       | IN   | -0.3 | 6    | V  |  |
| Input voltage range                        | DP1,DM1,DP2,DM2                                | -0.3 | 5.8  | ,  |  |
| Continuous output sink current             | DP1,DP2 input current, DM1,DM2 input current   |      | 35   | mA |  |
| Continuous output source current           | DP1,DP2 output current, DM1,DM2 output current |      | 35   |    |  |
| ESD rating, Human                          | IN   |      | 2    | kV |  |
| Body Model (HBM)                           | DP1,DP2,DM1,DM2                                |      | 4    |    |  |
| ESD rating, Charging<br>Device Model (CDM) |  |      | 500  | V  |  |
| Operating Junction<br>Temperature          | TJ   | -40  | 125  | 00 |  |
| Storage Temperature Range                  | T <sub>stg</sub>                               | -65  | 150  | °C |  |

<sup>(1)</sup> Stresses beyond those listed under Absolute Maximum Ratings may cause permanent damage to the device. These are stress ratings only, and functional operation of the device at these or any other conditions beyond those indicated under Recommended Operating Conditions is not implied. Exposure to absolute-maximum-rated conditions for extended periods may affect device reliability.

#### THERMAL CHARACTERISTICS

over operating free-air temperature range (unless otherwise noted)

| THERMAL METRIC |  |     |      |  |
|----------------|--|-----|------|--|
| $\theta_{JA}$  | Package thermal impedance <sup>(1)</sup> | 180 | °C/W |  |

<sup>(1)</sup> The package thermal impedance is calculated in accordance with JESD 51-7.

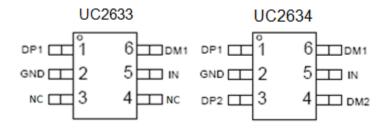

#### RECOMMENDED OPERATING CONDITIONS

|                      | PARAMETER                      |     |     |      |  |  |
|----------------------|--------------------------------|-----|-----|------|--|--|
| V <sub>IN</sub>      | Input voltage of IN            | 4.5 | 5.5 |      |  |  |
| V <sub>DP1/DP2</sub> | D+ data line input voltage     |     | 5.5 | V    |  |  |
| V <sub>DM1/DM2</sub> | D- data line input voltage     |     | 5.5 |      |  |  |
| I <sub>DP1/DP2</sub> | Continuous sink/source current |     | ±10 | mA   |  |  |
| I <sub>DM1/DM2</sub> | Continuous sink/source current |     | ±10 | IIIA |  |  |
| $T_J$                | Operating Junction Temperature | -40 | 125 | °C   |  |  |

### **PINOUT**

#### **PIN FUNCTIONS**

| NO. | NAME         | TYPE <sup>(1)</sup> | DESCRIPTION   |
|-----|--------------|---------------------|---|
| 1   | DP1          | O/I                 | DP date line to connector, output for hand-shake voltage to portable equipment, high impedance while disabled                                   |
| 2   | GND          | G                   | Ground connection   |
|     | NC (UC2633)  | NC                  | No Connection   |
| 3   | DP2 (UC2634) | O/I                 | DP date line to connector, output for hand-shake voltage to portable equipment, high impedance while disabled                                   |
|     | NC (UC2633)  | NC                  | No Connection   |
| 4   | DM2 (UC2634) | O/I                 | DM data line to connector, input for hand-shake voltage from portable equipment high impedance while disabled                                   |
| 5   |              |                     | Power supply/Input voltage connected to Power Switch; connect a 1 µF or greater ceramic capacitor from IN to GND as close to the IC as possible |
| 6   | DM1          | O/I                 | DM data line to connector, input for hand-shake voltage from portable equipment high impedance while disabled                                   |

(1) G = Ground, I = Input, O = Output, P = Power

### 12W Single/Dual USB Charger Adapter Emulator

### **ELECTRICAL CHARACTERISTICS**

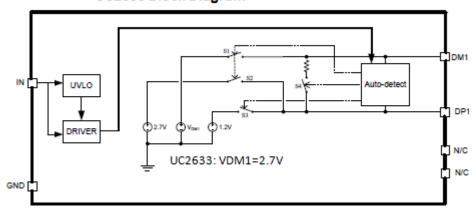

Conditions are -40°C  $\leq$  (T<sub>J</sub> =T<sub>A</sub>)  $\leq$  125°C and 4.5 V  $\leq$  V<sub>IN</sub>  $\leq$  5.5 V unless otherwise noted. Typical value is at 25°C. All voltages are with respect to GND unless otherwise noted.

| -                          | ARAMETER   | TEST CONDITIONS                                | MIN  | TYP | MAX  | UNIT |  |
|----------------------------|--|--|------|-----|------|------|--|
